HOW TO PLAY

1

Twenty-five questions await you.

Each one gives you a starting letter and an ending letter.

2

Connect the two letters.

Make as many words as you can that begin and end with them.

3

One point for every word.

Try to find more than three for each question.

4

Stuck? There is a clue.

Some questions carry a clue. Possible answers are at the end.

A note for grown-ups

Score it properly - a point a word, totalled at the end - and this turns into a game that two children will play against each other for half an hour.
