HOW TO PLAY

1

Count the dots in the box.

Carefully - that number is the whole puzzle.

2

Write the number in the small box.

So you don't lose count.

3

Write a sentence on the line.

The number of letters must match the number of dots.

4

Spaces don't count.

'I am sad' is seven letters, not nine.

A note for grown-ups

This one is arithmetic and spelling at the same time, and it is harder than it looks. Expect a lot of counting on fingers.
