HOW TO PLAY

1

Start from the dark word.

Make one single change to it and write the new word in box 1.

2

Only three changes are allowed.

Remove a letter, add a letter, or replace one letter with another.

3

One change per word. No more.

Box 2 changes box 1, box 3 changes box 2, all the way down.

4

Nine boxes to fill.

Alvin's chains are at the back. Yours will almost certainly differ.

A note for grown-ups

There are thousands of valid chains. If each step is one legal change and lands on a real word, it is right - whatever the answer page says.

THE EXAMPLE

SEA becomes ACT in nine single changes.
