HOW TO PLAY

1

Print the frame of icons.

Twenty-four of them on the next page.

2

Pick two at random.

Close your eyes and point, if that helps.

3

Join them into one quote.

Alvin's example: creativity + soul becomes 'Creativity is the continuous capture of ideas that strike your soul.'

4

Write it down and read it aloud.

A quote is meant to be said, not just written.

A note for grown-ups

The two things should not obviously go together. The further apart they are, the better the quote usually is.
