A VOCABULARY BOARD GAME

Alvin the Storyteller · Chennai, India · alvinthestoryteller.com

WHAT YOU NEED

A printout of the board and the question sheet, one marker for each player, and one dice. This board game is going to challenge your vocabulary skills.

THE TWO RULES

1. This is a two player game.
2. The player who reaches FINISH first is the winner.

One more rule, for the end

Once a player crosses 43, the opposite player only asks him a question when he rolls a number that takes him directly to FINISH, or that keeps him inside the game.

HOW TO PLAY

1. Two participants decide who is Player 1 and Player 2. Both players glance over the question sheet.
2. They place their markers on the START square.
3. Player 1 rolls the dice.
4. Player 2 picks a random question from the question sheet and asks it to Player 1.
5. If Player 1 answers within 90 seconds he moves forward by the number on the dice. If not, he stays where he is.
6. Player 2 rolls the dice.
7. Player 1 picks a random question and asks it to Player 2.
8. If Player 2 answers within 90 seconds he moves forward by the number on the dice. If not, he stays where he is.
9. Steps 3 to 8 repeat until one player reaches FINISH.

THE BOARD

Print this page. One marker each, one dice.
