HOW TO PLAY

1

Look at the four pictures.

T has linked itself to two of them, S to the other two.

2

Find the two T words and the two S words.

Write them in the answer boxes.

3

Use all four in a short paragraph.

That is the real work - the words are just the start.

4

Answers are at the back.

Ten puzzles, forty words.

A note for grown-ups

The paragraph matters more than the four words. A child who writes four separate sentences has missed it; push for one connected piece.

THE EXAMPLE

Four pictures, four words, one paragraph.
