HOW TO PLAY

1

Observe the game page.

Eight tenses run across the top. Each one holds two verbs.

2

Make a sentence for each verb.

Use the verb in the tense it is sitting under.

3

Every sentence must touch space.

Rockets, planets, astronauts, gravity, stars - your choice.

4

Cont. means continuous.

Sixteen sentences a page, forty-eight in the set.

A note for grown-ups

The space rule is what makes this hard and worth doing. 'I had found' is easy; 'I had found the missing oxygen tank' takes thought.
