HOW TO PLAY

1

Read the five dark letters.

Every word you build uses only these five.

2

Build up the bricks.

A two-letter word, then three, then four, then five.

3

Found more? Write them down.

Any extra words go on the Extra words line.

4

The first puzzle is solved for you.

Alvin's answers for the rest are at the back - a guide, not the only right answer.

A note for grown-ups

There is more than one way through most of these. If the child's word works, it counts, even when the answer table says something else.
