HOW TO PLAY

1

Read the clue.

Each one is an object talking about itself.

2

Guess what it is.

Everything in this pack is something found in a house.

3

Write it on the line.

Thirty clues, ten to a page.

4

Then take the memory test.

The last page asks how many of the thirty you can recall.

A note for grown-ups

Read the clues aloud in the object's own voice. "I have many keys" is funnier, and easier, when it sounds like the keyboard said it.
